P.L. 94-142 DISCUSSED

A meeting was held last week to discuss "Education for All Handicapped Children Act of 1975"--P.L. 94-142, the implications of the legislation on the education of hearing impaired children and the role the College should take in responding to the legislation.

The law requires that each state education agency identify handicapped students, diagnose their needs and provide appropriate educational placements. Although varieties of placements are allowed under the law, the concept of mainstreaming where handicapped students are integrated with the regular school population is emphasized. The College is concerned about what impact this will have on the education of deaf students.

Following the day's discussion the group decided to:

- *ask that a task force be appointed to establish the College's position and action/information plan

- *request that a staff or faculty member be released to chair this task force

- *hold informational meetings prior to the opening of the second semester for the total College community to talk about this legislation.

AMONG OURSELVES

--Will Madsen and Larry Berke will be in Indianapolis next week working with the Communication Therapy Program at Crossroads Rehabilitation Center.

--Last week Al Pimentel was in Los Angeles attending the state-wide White House Conference on the Handicapped.

--The Center for Continuing Education sponsored earlier this month an Action Conference in Westchester County, New

York. Tom Mayes, Leon LeBuffe, Ron Frank and Don Pettingill represented the Center.
